science driven by nature

DECLARATION

- *Ascophyllum nodosum* seaweed extract 15% by mass
- Phosphorus (P₂O₅) 7% by mass
- Potassium (K₂O) 10% by mass
- Iron (Fe-EDTA) 0.20% by mass
- Manganese (Mn-EDTA) 0.20% by mass
- Zinc (Zn-EDTA) 0.20% by mass
- Copper (Cu-EDTA) 0.10% by mass
- Boron at 0.13% by mass
- Molybdenum at 0.05% by mass

USE

- Balanced formula with PK, microelements and organic compounds derived from *Ascophyllum nodosum* seaweed extract for stimulation of photosynthetic activity and abiotic stress alleviation and prevention.
- Growth of fruits and vegetables. When used at fecundation, setting and initial fruit growth stages of fruit and vegetable crops, boost metabolic and physiological processes with positive influence in the fruit size.
- Also contains chelated trace elements which are co-enzymatic factors for the enzyme SOD, responsible for the detoxification of ROS (free radicals) in plants.
